

MK SKATE STREET EXHIBITION
27 SEP-06 JAN

This map is a basic navigation of the current MK Skate Street Exhibition, which explores some of the most well-known street skateboarding spots in Central Milton Keynes. It also shows some extra points of interest popular in the local skate scene.

As you'll see when you follow the trail, many of these spots, which to the non-skater appear to be somewhat mundane everyday architectural features have been internationally recognised in a variety of global publications, media channels and skated by world famous professionals. We hope you enjoy your walk through our streets.
